

Drying Up

October 26, 2021 6:30 PM

The Venice Area Audubon Society will be bringing you the first program of the season via Zoom. Our presenter is John Dunne, author of the award-winning book, “Drying Up - The Fresh Water Crisis in Florida”.

America’s wettest state is running out of water. Florida—with its swamps, lakes, extensive coastlines, and legions of life-giving springs—faces a drinking water crisis. *Drying Up* is a wake-up call and a hard look at what the future holds for those who call Florida home. Journalist and educator John Dunn untangles the many causes of the state’s freshwater problems. Drainage projects, construction, and urbanization, especially in the fragile wetlands of South Florida, have changed and shrunk natural water systems.

Dunn investigates previous and current restoration efforts as well as proposed future solutions. He challenges Floridians to rethink their relationship with water and adopt a new philosophy that compels them to protect the planet’s most precious resource. If you wish to read “Drying Up” it can be ordered from UF Press here: <https://upf.com/book.asp?id=9780813056203> Enter the code **WATER** and receive a 25% discount and free shipping through October 2021.

Advance registration is not required. Just click the link at presentation time.
